

Nom nom i - vii

I Yen Chen Studio /
2024 Summer Collection /

"Nom nom" is the sound that one makes when eating something delicious.

Italians love food culture and value food, wine and taste.

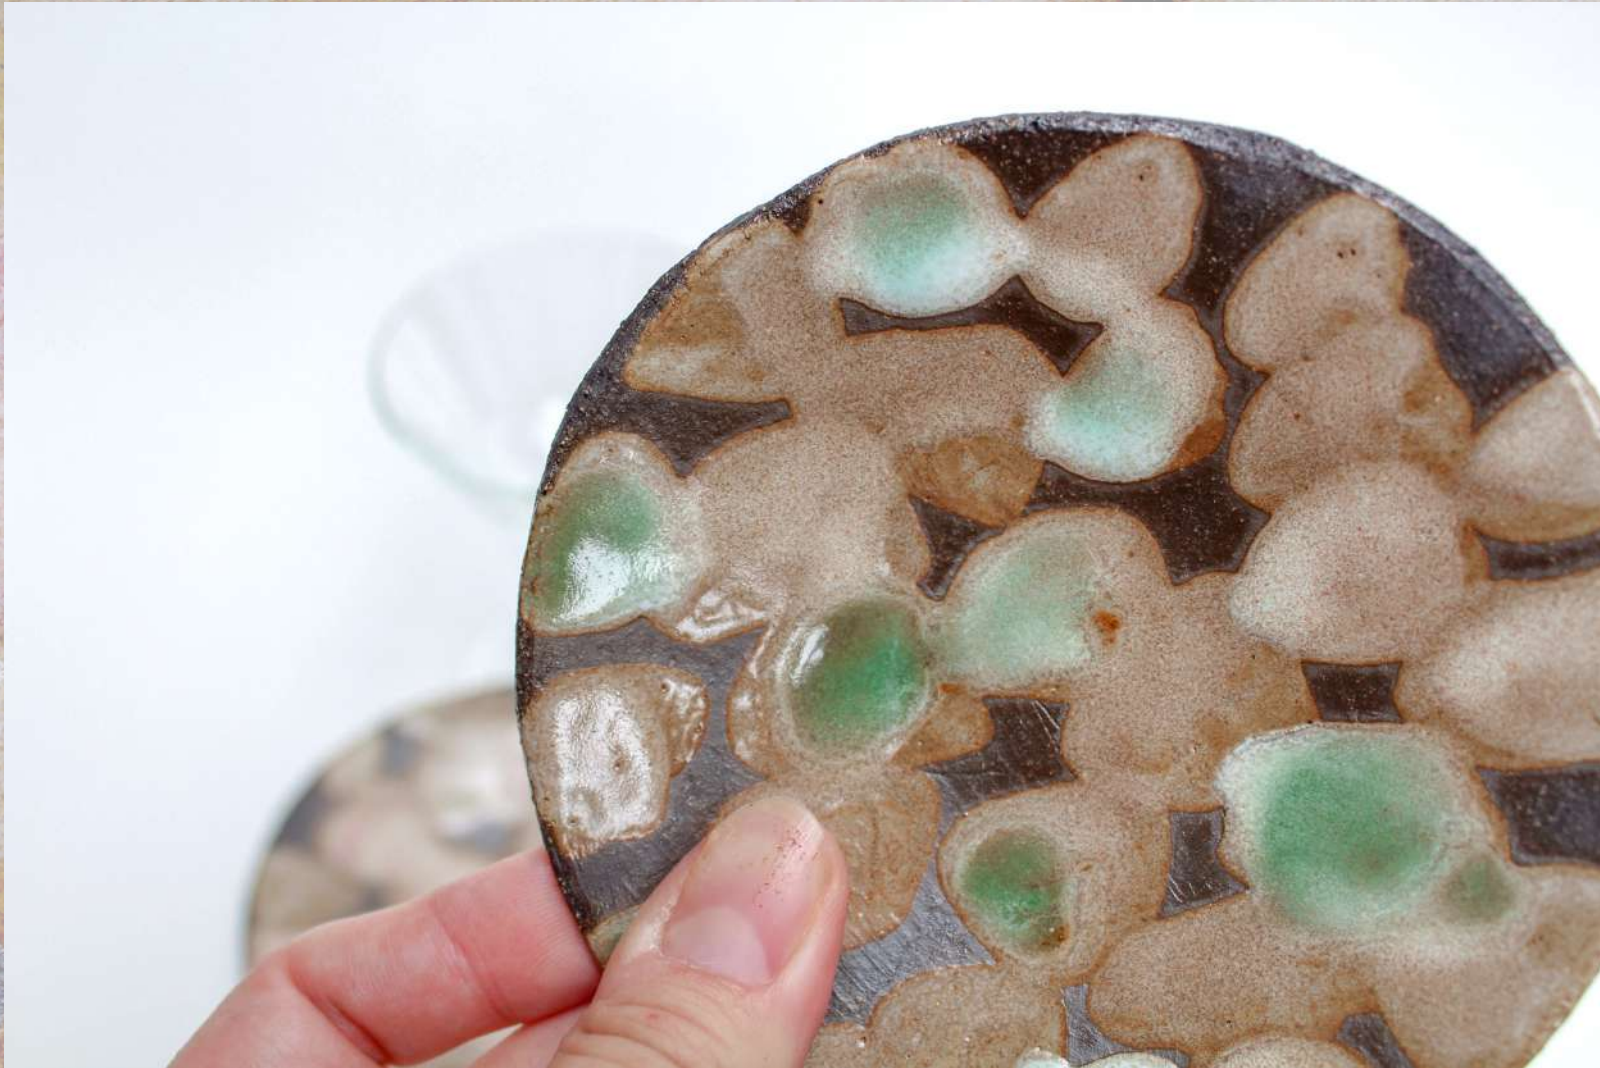

And there is a special aspect of their food culture called "aperitivo".

In addition to refreshing, bubbly aperitifs, "aperitivo" also includes a variety of snacks. But the most of all, is this special window of time after work and before dinner. Sitting down with family and friends, having a drink with snacks before dinner, plus the endless chat. This is the magic hour that changes one's mind and role.

And this is "Nom nom".

Enjoying snacks and making delicious sounds is a magical moment that belongs only to oneself and one's friends.
