

Midnight diner i - x

I Yen Chen Studio / 2023 Spring Collection /

My Taipei home is a midnight diner,  
all my friends know it and love it. It's better  
than any restaurant you can find in the city.

When people end their day, they need a  
place to linger before going straight to bed,  
and this is midnight diner.

Sit down to have something with it,  
share your day with your love ones.  
This is your midnight diner.
